Maintenance and Inspection

Maintenance

Clean after each use to maintain safety and durability.
Remove any dust, corrosive material or contaminants.
If the fall protection system cannot be cleaned with clean water, use mild soap and water, then rinse and wipe dry.
NEVER clean the fall protection system with corrosive materials.

Inspection

Before EVERY use, inspect the fall protection system for defects.

IMMEDIATELY remove the fall protection system from service if any defects or damage are found, or if it is exposed to fall arrest forces.

At least every 12 months, a competent person other than the user should inspect the harness.
