### Advice in the event of a road accident

1. Find a safe place to pull over on the shoulder of the road and place shelter your passengers.
2. Turn on your emergency flashers. If it's dark, keep your headlights on and turn on your vehicle's dome light as well.
3. Put on your high-visibility safety vest so you can be seen even on the darkest roads.
4. Put on your vehicle's warning devices. You will find these devices in the road kit e.g. reflective triangles, flares, plastic "S.O.S." flag, etc...
5. Return to your vehicle and stay inside. Call for assistance and inform the dispatcher of the situation. It is suggested that you remain in your car until the assistance services arrives.
