Anti-Vibration Synthetic Leather Gloves

MKC090

Description

These mechanics work gloves help to protect workers from impact and vibration caused by power tools. They're made of a washable synthetic leather palm and feature an optimized neoprene palm padding at pressure points. The slightly padded back made of elastic mesh and ventilation holes on finger sides provides better comfort. The double elastic wrist band and wide wrist opening ensure a quick fit.

Materiel

- Washable synthetic leather palm
- Neoprene pressure point padding
- Slightly padded back made of elastic mesh

Size:

S to XL

Washable

Leather pieces added to the tips of the index fingers and thumb for better compatibility with touch screens

Care and washing instructions

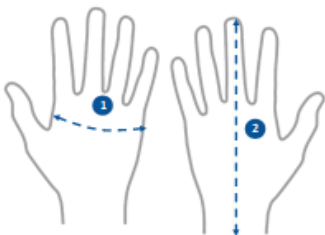

A good way to keep leather gloves longer is to clean them regularly.

- Wash with cold water or clean with a soft, damp cloth, removing any dirt
- Clean with a cloth and a mild soap that contains natural grease (e.g. Marseille soap)
- Air dry only
- Do not iron
- DO NOT clean with harsh soap as this removes natural oils from the leather and makes it more rigid

Size chart

MKC090

Size Kosto *		S	M	L	XI
1	Width (hand)	10.5	11	11.5	12
		4.1	4.3	4.5	4.7
2	Length (glove)	22	23	24	25
		8.6	9	9.4	9.8

* The measurements are those of the product

* A fitting is always recommended
