Suspension Replacement for Hard Hats

TSK100

Description

The Kosto replacement suspension provides comfort with a pad at the back of the head. This suspension drops low to the neck to improve the helmet's balance and stability.

The Kosto safety helmet's ratchet adjustment system fits head sizes 6 1/2 to 8 and features a four-point nylon suspension. With all of these features combined, this suspension allows you to adjust the size and tension for a secure and personalized fit.

Material

- 4-point nylon suspension

Size

Universal

Washing instructions and use

Washing instructions:

It is recommended in CSA Z94.1-15 to check and clean your head protection equipment daily. It is recommended to clean the hard hat and suspension with warm water and mild soap (dish soap).

Caution:

The hard hat suspension should be inspected and washed daily to remove oil, hair, perspiration. The manufacturer recommends replacing the suspension annually.
